

INFORMATION TECHNOLOGY MANAGER III
(Administrative Manager III)

DEFINITION

Manages a large department/agency IT division, with multiple subordinate unit managers or supervisors. Duties include, but are not limited to: supervising/managing others through subordinate supervisors/managers; giving direction to staff; making program and policy recommendations to function management and/or department executive team; leading department projects/assignments; setting the vision/mission for the assigned program, unit or section and ensuring achievement of objectives; exercising a significant level of discretion and accountability in program decisions and work to be accomplished, including changing priorities for subordinate staff within the scope of assignment; directs the management of projects; performs other related duties as assigned.

DISTINGUISHING CHARACTERISTICS

This is the third-level of the departmental IT management series which is distinguished from the Information Technology Manager II position by the larger size and complexity of the Agency/Dept. Incumbents work under administrative direction, working from general directives or broadly defined missions of the assigned department. Incumbents may directly supervise a variety of management, supervisory, professional, technical and/or other support staff.

EXAMPLES OF DUTIES

- Develops department IT strategic plans, objectives and priorities.
- Determines IT organizational structure, staffing needs, and work strategies.
- Develops and administers annual IT budget; approves and tracks expenditures; reviews and approves costs for new hardware, software and other items; reviews, approves and prepares cost/benefit analyses, reports and recommendations.
- Manages the development of operational and/or functional standards, practices, policies and procedures; participates in the development and implementation of strategic department goals, policies and priorities.
- Supervises the work of professional, technical and/or other employees through subordinate supervisors/managers; ensures that they have adequate resources to perform their duties; ensures that assigned operations and activities comply with organization goals and objectives.
- Assumes responsibility for staff development and training; evaluates employee performance; identifies individual training needs and works to ensure those needs are met.
- Responsible for the department information technology infrastructure, architecture, systems, networks, applications and resources.
- Designs, directs and oversees work section quality assurance activities.
- Meets and consults with customers and vendors regarding service delivery needs; oversees the design, development, delivery and/or implementation of IT products to meet those needs.
- Oversees the development of specifications for "requests for proposal" pertaining to external services; reviews submissions and provides recommendations on vendor selection.
- Assumes responsibility for procurement of services and goods required.

- Directs the management of projects to enhance and/or upgrade technology services and utilization.
- May manage large complex projects that require varying levels of staff and resource support.
- Prepares reports, correspondence and other documents; participates on committees and task forces; attends meetings, conferences and training sessions.
- Performs other related duties as assigned.

MINIMUM QUALIFICATIONS

Knowledge of:

- Principles and practices of public administration, including budgeting, staff development, customer service and human resource management.
- Principles and practices of management, supervision and leadership.
- IT Best practices, standards, policies and procedures.
- Computer hardware and software systems similar to those being used by the hiring department, including business applications, operating systems, and network systems.
- Advanced project management principles, practices and techniques.
- Advanced principles, methods and techniques used in designing, developing, testing and implementing information technology applications, systems and networks.
- Advanced operations, services, concepts, terms and activities common to a comprehensive, state-of-the-art information technology program.
- Advanced information technology development lifecycle and design principles.
- Advanced methods and techniques of evaluating business need requirements to provide technology solutions.
- Database design, standards, and operational processes.
- Advanced operational characteristics of local and wide area network systems.
- Advanced operational characteristics of communication systems, equipment and devices.
- Principles and practices of customer service.
- Methods and techniques of developing and presenting technical documentation and training materials.

Ability to:

- Plan, organize and manage the work of information technology staff.
- Manage and supervise a section of subordinate employees who perform professional information technology work through subordinate Managers.
- Develop work plans and methods to ensure that assigned work areas are functioning in the most effective and efficient manner.
- Develop and maintain comprehensive procedures manuals and documentation.
- Assist with development and administration of the budget for the assigned section.
- Coordinate and administer a variety of information technology projects.
- Gather and evaluate information in order to reason logically, draw valid conclusions, take appropriate actions and/or make appropriate recommendations.
- Communicate technical information to a wide variety of users.
- Adapt quickly to changes in policies, procedures, assignments and work locations.
- Communicate effectively, both orally and in writing.
- Establish and maintain effective working relationships with those encountered during the course of the work.

Education/Experience:

One year of experience as an Administrative Manager II with the County of Orange;

OR

Five (5) years of responsible information technology-related experience that provided the knowledge and abilities identified above;

A bachelor's degree from an accredited college or university with major coursework in computer science, information systems or a closely related field may substitute for two (2) of the required years of experience.

College level education or training directly related to the competencies and attributes required of the position may be substituted for up to one year of required experience at the rate of three semester units or the equivalent, equaling one month of experience and one hour of training equaling one hour of experience.

College level education or training beyond a bachelor's degree, which is directly related to the competencies and attributes required of this position, may be substituted for up to an additional year of required experience at the rate noted above.

Special Requirements: Depending upon assignment, demonstrated professional level experience and/or certification pertaining related to the duties of the position may be required.

PREFERRED EXPERIENCE/EDUCATION

Experience: Two (2) years performing at a level that is comparable to the Orange County class of IT Manager II or 12 years of information technology-related experience that provided the knowledge and abilities identified above.

Education: Possession of a bachelor's degree from an accredited college or university with major coursework in computer science, information systems or a closely related field that has provided the candidate with a sound conceptual understanding of information technology concepts. Post-graduate education beyond a bachelor's degree which directly enhances the knowledge required for this position is desirable.

PHYSICAL REQUIREMENTS

All Positions:

Possess vision sufficient to read standard text and a computer monitor; speak and hear well enough to communicate clearly and understandably in person to individuals and groups and over the telephone; possess body mobility to stand, sit, walk, stoop and bend routinely to perform daily tasks and to access a standard office environment; possess manual dexterity sufficient to use hands, arms and shoulders repetitively to operate a keyboard, utilize office equipment and to write; use a County approved means of transportation.
